G7 CERTIFIED

The G7 Sytem Certification Program is a program that evaluates the merits of printing software applications to meet the G7 grayscale definition. G7's standards are some of the most rigrous in our industry, and we work hard to meet them. This dsignation identifies more than 1,100 print service providers, prepress providers, and creative agencies worldwide that excel in their implementation of the G7 Proof-toPrint Process. We're proud to be recognized with this distinction.

The World's Highest Quality **Premium Ad Flags**

BLADE FLAG

The Custom Blade Ad Flag is our most popular premium advertising flag! Premium Advertising Flags are designed for maximum exposure, and its full design print will remain visibile at all times, regardless of wind condition. These flags are used in conjunction with a highly-flexible, ultra-durable fiberglass pole.

Also, with our ability to customize it with 1 of 4 unique bottoms, this flag will give you the look to stand out in a crowd.

We also offer a wide selection of ground spikes, bases and mounts to make these flags a perfect solution for any location. (Add ons and accessories located on page 8)

•NEON FLAGS AVAILABLE

NYLON
Nylon is a durable, UV-protected material for outdoor prints and the industry standard for flags.

EVERTEX®
Nylon is a durable, UV-protected material for outdoor prints and the industry standard for flags.

CONSTRUCTION OPTIONS

SINGLE REVERSE V. DOUBLE SIDED

**Single Reverse** prints have a 90% penetration rate and show the reverse image of the front side.

Double Sided prints can have two different designs on each side and have a liner sewn in between to keep images from meshing with each other.

TRADITIONAL AD FLAGS

Our traditional feather & attention flags offer a range of sizes, shapes, and design options that include solid colors, stripes, panels, messages and full custom designs. These flags are designed to go on our fiberglass telescoping poles and are best used in semi-permanent installations. However, with multiple base options and mounts to choose from, you can set up these flags anywhere. In addition to the standard pole sleeve, these attention flags can be finished with canvas header and grommets to be flown on a traditional flag pole.

Traditional Feather Flags require wind to keep the printed message and/or design visible.

* Use 15' Pole for 6', 8', 10' & 12' Flags.
**Use 21' Pole for 15' & 18' Flags.
Poles are shipped with a permanent ground sleeve.

Dye Printed Flags

We produce brilliantly colored, custom printed flags. We dye print our products by digitally printing with the highest quality equipment in the world. We can also screen print the flags with brilliant dyestar inks. Our dye printing saturates the UV-protected materials with fade resistant inks, ensuring the longest lasting, highest quality printing in the world. Flags can be printed as single reverse or double sided.

SIZING & CONSTRUCTION

SINGLE REVERSE V. DOUBLE SIDED

TEXT TEXT TEXT TEXT

Single Reverse prints have a 90% penetration rate and shows the reverse image of the front side.

Double Sided prints can have two different designs on each side and have a liner sewn in between to keep images from bleeding with each other.

THE WORLDS GREATEST CUSTOM FLAGS

Dye Printed Flags

We produce brilliantly colored, custom printed flags. We dye print our products by digitally printing with the highest quality equipment in the world. We can also screen print the flags with brilliant dyestar inks. Our dye printing saturates the UV-protected materials with fade resistant inks, ensuring the longest lasting, highest quality printing in the world. Flags can be printed as single reverse or double sided.

We also offer different sizes and shapes of finishing. Flags can be printed on our proprietary EverTex® material or nylon.

CUSTOM SHAPES

We pride ourselves in our ability to create anything you can dream of... so when it comes to custom shapes or additions, such as fringes, frays or anything else, we believe we can do it better and faster than anyone else. Additional fees may be added on depending on the time and additional materials needed. Please contact your sales representative for further details and we will get back to you asap.

Nylon
Nylon is a durable, UV-protected material for outdoor prints and the industry standard for flags.

EverTex®
EverTex® is our proprietary flag material made of a highly durable, knitted polyester. We believe it is the longest lasting, most durable flag material in the world. We are proud to introduce to you what we believe will revolutionize the American flag market.

STANDARD FLAG
FUN FACT: The oldest and most used form of advertising.

Single Reverse prints have a 90% penetration rate and shows the reverse image of the front side.

Double Sided flags contain a sewn in liner between both prints to keep images, from each side, from meshing with each other.

EURO FLAG

Our Euro Ad Flags allow traditional flag poles to be transformed into a beautiful advertising media display. Based on a popular form of advertisement in Europe, we have developed a process to mount a vertical banner on a traditional flag pole with slight modifications. Each flag contains pole pockets to hold the pole hardware.

Simple Installation

Simply insert the vertical pole and horizontal pole into the pole pockets and add rope retainer rings every 4' to 5'. Weights are optional accessories to add to the bottom of the flag. The flag will fly perfectly and provide highly visible advertising.

DESCRIPTION	SR ITEM#	DS ITEM#	GRAPHIC HEIGHT	GRAPHIC WIDTH	WEIGHT	MATERIAL

Double sided flags contain a block out liner sewn in between two prints. Its actual weight is about 2X the amount shown in the table above.   **SR** = Single Reverse Flag   **DS** = Double Sided Flag
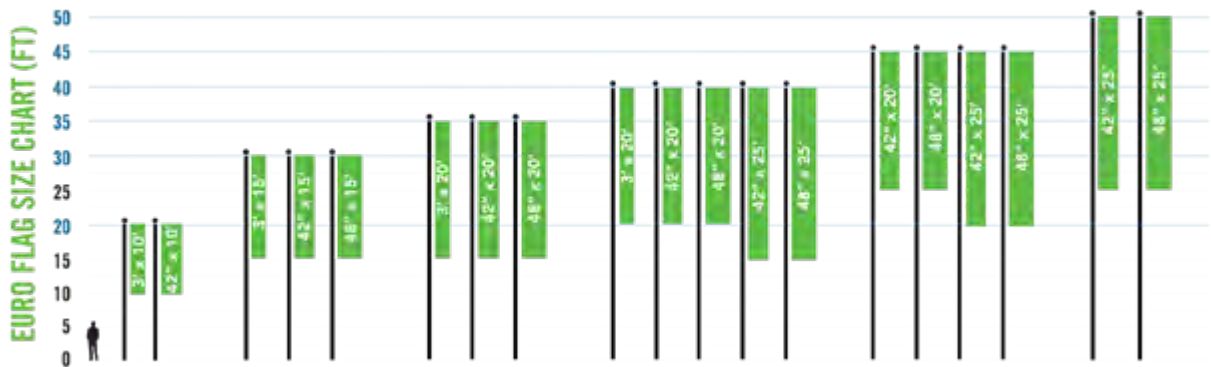

HOW IT WORKS

STEP 1
Flags are sewn with pole sleeves for housing display hardware.

POLE SLEEVE SEWN CLOSED

YOUR FLAG

STEP 2
Hardware inserts into pole sleeve before installation.

INSERT VERTICAL BAR POLE IN VERTICAL SLEEVE

YOUR FLAG

STEP 3
Flag pole clip attaches to top of pole hardware, as flag is hoisted.

INSERT VERTICAL BAR POLE IN VERTICAL SLEEVE

YOUR FLAG

STEP 4
Attach rings to flag and fasten base weight at the bottom.

ATTACH TOP SLEEVE GROMMET TO FLAG POLE HALYARD, THEN HANG RETAINING RINGS AROUND POLE. FASTEN POLE WEIGHT & HOIST FLAG.

YOUR FLAG

HARDWARE COMPONENTS

Select 1 piece from each colored section below to build your hardware kit needed for your Euro flag.

A-FRAMES

ALUMINUM A-FRAME

Our aluminum A-frame is double sided with a protective acrylic film that protects the graphic. Print can be produced on adhesive, coroplast, or paper.

STEEL A-FRAME

Our new weather-resistant and sturdy Steel A-Frames are a must-have for busy streets. Graphics are easily interchangeable by snapping into built-in rails.

A variety of graphic print materials and 3 frame sizes are available.

RIGID OUTDOOR SIGN MATERIALS

Looking for a rigid sign to display outside or hang inside? Here are 4 of our most popular rigid substrates to advertise from. If you don't see what you are looking for give us a call and let us help you.

STYRENE

- Heavy duty graphic arts board with plastic liners
- Excellent for screen printing, routed letters, permanent signs, point of purchase displays
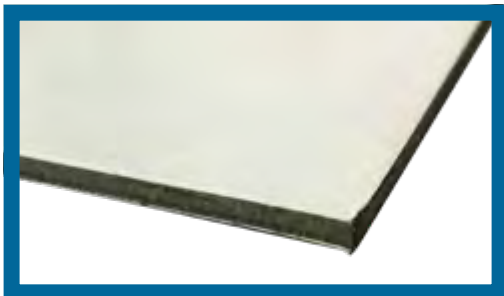

DESCRIPTION	ITEM PREFIX	TOTAL HEIGHT	TOTAL WIDTH	TOTAL DEPTH	WEIGHT	MATERIAL
Styrene	SRB	4'	8'	3mm and 6mm	1 lbs	Plastic
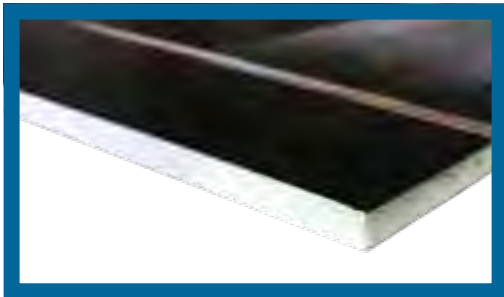

PVC

- A versatile and durable product, PVC Foam Sheet or expanded PVC is a durable, closed cell, free foam PVC sheet material that combines a rigid exterior and matte finish. Great for interior and limited exterior applications including menu boards, advertising displays, exhibits, and walls.
- Comes in 3mm and 6mm sizes

DESCRIPTION	ITEM PREFIX	TOTAL HEIGHT	TOTAL WIDTH	TOTAL DEPTH	WEIGHT	MATERIAL
PVC	SRD	4'	8'	3mm and 6mm	1 lbs	Polyethylene Foam

MAX METAL

- Aluminum sheets surrounding a high density polyethylene core
- Great for routing, channel letters and sign cabinets
- Sturdy and durable outdoor sign

DESCRIPTION	ITEM PREFIX	TOTAL HEIGHT	TOTAL WIDTH	TOTAL DEPTH	WEIGHT	MATERIAL
Max Metal	SRE	4'	8'	3mm and 6mm	1 lbs	Aluminum & Polyethylene Foam
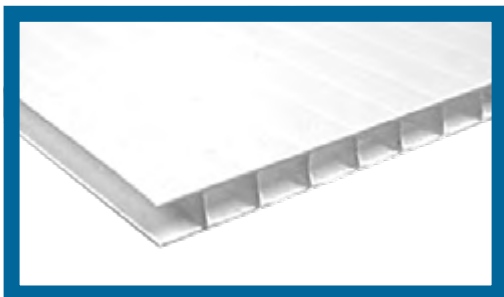

COROPLAST

- Fluted Polypropylene
- Excellent substrate for a variety of interior and exterior signs such as yard signs, directional signage, interior P.O.P. signs.
- 3mm and 4 mm thickness will accommodate 9 gauge stakes
- Can be routed, die cut, scored and hand cut to create unique sizes and shapes

DESCRIPTION	ITEM PREFIX	TOTAL HEIGHT	TOTAL WIDTH	TOTAL DEPTH	WEIGHT	MATERIAL
Coroplast	SRA	4'	8'	3 mm and 4mm	1 lbs	Polypropylene

ASK ABOUT OUR MULTICOLOR SIGNICADE® OPTIONS

SIGNICADE® DELUXE

The Signicade Deluxe is made of sturdy plastic and is easy to setup and teardown. The display is produced from polyethylene, a rugged plastic, rendering it perfect for outdoors. Known for its rugged construction, the frames won't rust or splinter over time.

The Signicade® Deluxe sidewalk sign is double-sided, and is engineered to accommodate two 24" x 36" sign inserts up to 3/16" in thickness.

DESCRIPTION (PRINT)	ITEM#	GRAPHIC HEIGHT	GRAPHIC WIDTH	TOTAL HEIGHT	TOTAL WIDTH	TOTAL DEPTH	WEIGHT	MATERIAL

ROLL N' GO DISPLAY

Our portable Roll N' Go display is for signs from 12" x 18" to 24" x 30". Printed signs can be added and removed in seconds. It can also be used with single mounted signs or 2-sided, back-to-back mounted signs. Stability plates keep the sign from twisting on the pole. The sign holder has a rust-proof, low-profile technopolymer base with a ballast that can be filled with sand or water for extra stability. Portable pole outdoor sign can be moved from place to place. Just grab the nylon loop handle, lean it over and then Roll n' Go.

PORTABLE BASE HAS 2 DISPLAY OPTIONS:
(a) Base, Print & Pole or
(b) Base & Print
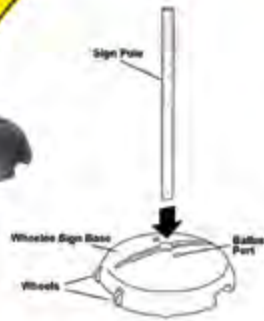

Sign board inserts securely into base and accommodates signs from 12" x 18" to 24" x 30"

SIDEWALK SIGN

The Sidewalk Sign has a rugged steel spring system that sits on a tough, fillable plastic water base with easy-to-transport caster wheels. This display system will hold up in all types of weather conditions. Graphics are easily interchangeable with its 4 sided snap-shut frame, plus a variety of graphic print materials are also available for use with it - including polystyrene, adhesive vinyl or paper.

Please note that while the snap frame and cover lens work to seal out moisture, your posters may become damaged if utilized in extremely harsh circumstances for example heavy rain and snowstorms.

Reverse Side View

Base fills up with 7 gallons of water, and adds up to 65 lbs of weight to keep your base in place and stabilized.

CUSTOM LED PILLAR INFLATABLE

Custom LED Pillar Inflatables are a fun and attractive way to add excitement to an entrance or path, highlight an area, or mark an event perimeter. They can also function as decorative room partitions.

Pillars are great tools for temporary branding solutions - and can be fully printed with custom messages or logos. The LED Pillar Blower, which features an internal motor that continuously rotates the blower 360 degrees, also lights up your pillar to attract every customer that walks by. The rotation blower combined with the lights is a sure way to maximize exposure for your business or event.

* LED blower motor shown is a modified illustration, therefore model could look different.

INFLATABLE TENT

The high-quality craftsmanship of the X-Gloo Event Tent is reflected through simple operation, minimal weight with small packing dimensions, and quick setup and take down. Once inflated with air, the lightweight tent stands securely on nearly any surface.

The BLOCK-BUILDING SYSTEM upon which the tent is designed makes it possible to quickly change each individual componentâ€"such as the roof or tubesâ€"to achieve almost any design or color combination. Tunnel elements provide the solution for easily attaching multiple X-Gloos to form a modular tent city!

PENNANT STRING FLAGS
CUSTOM PENNANT STRING FLAGS

Pennant Strings are one of the most budget-friendly methods of attracting attention to an festival, promotion or company. Pennant strings add a unique flare to any type of event or campaign. Available in 3 sizes and string lengths, these pennants are very effective for outside decors.

Choose between triangle or rectangular shaped pennants. Rectangular shapes can be laid out vertically or horizontally on 6ft string.

PHOTO FLOATS WITHIN FRAME

FREE FLOATING FRAMES

Get the look everyone is after by suspending your canvas art wrap in a free floating frame. Create the illusion of a floating canvas! The dark interior of the frames make it appear as if your canvas is floating in space! These frames are named for the illusion they create: once set in the frame, the artwork "floats" within it, providing a striking, streamlined, and altogether elegant appearance. With Free Floating frames, the artwork's edges are not entirely covered and the whole front canvas print is visible.

Frame comes in 2 depths: 3/4" and 1 1/2" - Call or email us about your custom height and width size.

KEY FEATURES: ✔ Made of Wood ✔ Includes all hardware ✔ Dark interior

CONTACT US TODAY FOR YOUR CUSTOM FREE FLOATING FRAME AND PRINT!

SILICONE-EDGED TEXTILE FRAMES

Whether you are looking for a permanent installation or highly visible portable display, our textile frame light-box options offer a professional look for any advertising need.

Textile light boxes use aluminum extrusion frames and push-fit fabric graphics. Frames listed are available with or without LED lighting, and are single or double sided. LED lights easily attach to the frame, making set-up as simple as assembling the frame, applying the push-fit graphics and plugging in the electrical cord!

AVAILABLE SIZES

Choose one of these beautiful textile frames and enhance the visual appeal in your store. All frames are 78" in height and width size ranges from 24" to 60". **Custom sizes are available.**

Each frame has a NON-LED and LED option to choose from.

NON-LED & LED FRAME ASSEMBLY

All of our textile frame products combine ingeniously-designed rigid frames with the softness of beautiful textile prints. The prints are fitted with a silicone strip that fits exactly into the groove of the frame.

The images below illustrate this concept. Mounting prints with silicone strips is easy. The quality is exceptional, whatever the size of the frame. You will not be able to discover a single crease, even in displays as large as 20 x 10 feet, and installing a print takes only a matter of minutes. Should anything be unclear, do not hesitate to contact for help.

HIGHLIGHTS

✓ Easy to change out prints even without any experience

✓ A high-quality innovative appearance that distinguishes you from all other point of sales products

✓ Compact and lightweight

ARROW TIP SIGN HOLDER

With easy assembly and display, this stand is perfect for any advertising opportunity.

Comes with travel bag.

HIGHLIGHTS

✔ M shaped steel bases accommodate up to 1" thick substrates such as styrene or foam board.

✔ Use with double sided graphic for front and back viewing.

✔ Interior holes with carriage bolts and wing nuts support any rigid graphics. Make matching holes in graphics or use without holes holding graphic above the carriage bolts.

✔ Extremely sturdy as all the weight is centered on the floor.

✔ 3-1/2" Height off floor, 9" from front to back.

SIMPLY WEDGE YOUR GRAPHIC PRINT IN BETWEEN THE TWO SIGN HOLDERS

STRETCH TABLE COVERS

ECONOMY SCREEN PRINTED AND PREMIUM DIGITAL PRINTED

Our Custom Stretch Table Cover gives your table a clean and chic appearance that won't be forgotten. Table covers and drapes are printed on polyester fabrics with dispersed dyes. All sizes are flame retardant. These drapes can be machine washed after use. Drapes ome in 4-sided and 3-sided options and are produced using full color digital printing.

AVENUE BANNER

A great way for cities, towns, apartment complexes and many others to promote themselves, Avenue banners are attached to light poles with two aluminum brackets. The banner has a standard fold-over pole pocket on the top and bottom, with sewn, vertical edges and 2 brass grommets.

HIGHLIGHTS

- ✔ High-Quality hardware for incredible stability
- ✔ Array of materials to print on
- ✔ Large range of sizes to advertise your event
- ✔ Easy assembly and changeout of graphics

Single reverse banners are printed on nylon, while double sided prints are printed on vinyl.

TENT WALLS

Don't let the weather elements ruin the event that you worked so hard to prepare. Our custom printed tent walls are user friendly, install in minutes, and provide protection from wind, rain, and other weather elements so you can continue to enjoy your event. These sidewalls also attach at the sides using Velcro® straps making them ideal for trade shows and outdoor fairs and events.

FULL WALL

Attach one Full Tent Wall for extra sun shade and wind block or create a fully enclosed tent with four of these durable walls.

Full Digital Design Print

WORKS WITH THESE FRAMES

FULL WALL with WINDOW

Attach one Full Tent Wall with Window for viewing purposes. You can fully enclose your tent with four of these tent walls.

Full Digital Design Print

WORKS WITH THESE FRAMES

ZIPPER ENTRANCE WALL

This is a front tent wall for any of our 3 tent frames. The zipper zips all the way up, typically used for an entry way or ventilation.

SR = Single Reverse Flag   **DS** = Double Sided Flag

PATIO UMBRELLAS

Our patio umbrella canopies are beautifully crafted of 200 D polyester. Graphics are printed with dispersed dyes and materials are pre-treated to ensure long-lasting color and durability. The canopy is water repellent and weather resistant. We can digitally produce one piece or many pieces with full graphics. We can also screen print individual color locations.

C-SERIES BEACH UMBRELLA

The C series white beach umbrella frame is made of durable steel and has a 45° degree break in the frame to give you the ability to shade yourself no matter where the sunshine is coming from. Umbrella tops can be digitally or screen printed. Screen printed pieces can be ordered at a minimum quantity of 25 pieces.
